Rather than interpreting the prison everywhere as the predictable result of 'globalisation', this book underlines that it was never simply 'imposed' by colonial powers or 'copied' by elites eager to emulate the West, but was reinvented and transformed by a host of local factors, its success being dependent on its very flexibility. Complex cultural negotiations took place in encounters between different parts of the world, and rather than assigning a passive role to Latin America, Asia and Africa, the authors of this book point out the acts of resistance or appropriation which altered the social practices associated with confinement.

Once again, Schmallegger is the most current and popular text on the market and continues to lead as the gold-standard among criminal justice texts today! Criminal Justice Today: An Introductory Text for the 21st Century, 13e continues to lead as the gold-standard for criminal justice texts. Best-selling, student- and instructor-preferred, and time- tested-Schmallegger is the most current and popular text on the market. This textbook guides criminal justice students in the struggle to find a satisfying balance between freedom and security. True to its origins, the thirteenth edition focuses on the crime picture in America and on the three traditional elements of the criminal justice system: police, courts, and corrections. This edition continues to question the viability of our freedoms in a world that has grown increasingly more dangerous. Students are asked to evaluate the strengths and weaknesses of the American justice system as it struggles to adapt to an increasingly multicultural society and to a society in which the rights of a few can threaten the safety of many. Teaching and Learning Experience This book will ground students in the important issues that continue to evolve from the tension between the struggle for justice and the need for safety. It provides: An all-in-one, comprehensive resource: Provides students with the gold-standard among criminal justice texts on the market today Latest developments in the field:

Offers extensive coverage of technology and crime Critical analysis of today's issues: Includes the most up-to- date coverage of white collar crime, hate crime, and cyber crime Exceptional pedagogical features: Gives students the tools to master key concepts faster and more effectively MyCJLab: MyCJLab was designed to meet the needs of today's instructors and students. A practical, inside look at the world of corrections Updated with state-of-the-practice information, recent data, and new research and findings, *Corrections: An Introduction*, 5/e, provides a practical approach to the world of corrections. Richard Seiter focuses on what people do in corrections, why they do it, and what challenges face contemporary correctional staff and administrators. Seiter gives students a first-hand look at corrections, integrating his experience in the field with correctional theory, history, and policy. Coverage of the realities and rationales of actual correctional practices at the local, state, and federal levels allows readers to see how theory is put into practice. Engaging case studies, career tips, and personal insights help students connect with the material and gain a realistic and practical understanding of corrections today. *Corrections*, 5/e is also available via REVEL(tm), an interactive learning environment that enables students to read, practice, and study in one continuous experience. Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyze the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

This book views peacemaking as a broad, encompassing process that is expressed in many different shapes and forms. It blends ancient-wisdom traditions, peacemaking criminology, and restorative justice principles as a way of intervening with offenders in both institutional and community-based settings. Philosophical and spiritual contexts for peacemaking are presented that form a foundation for understanding the potential for peacemaking in criminological thought, the criminal justice system, and society in general.

This book explores the frightening ways our prisons mirror the worst aspects of society-wide gender relations. It is part of the growing research on men and masculinities. The collection is unusual in that it combines contributions from activists, academics, and prisoners. The opening section, which features an essay by Angela Davis, focuses on the historical roots of the prison system, cultural practices surrounding gender and punishment, and the current expansion of corrections into the "prison-industrial complex." The next section examines the dominant or subservient roles that men play in prison and the connections between this hierarchy and male violence. Another section looks at the spectrum of intimate relationships behind bars, from rape to friendship, and another at physical and mental health. The last section is about efforts to reform prisons and prison masculinities, including support groups for men. It features an essay about prospects for post-release success in the community written by a man who, after doing time in Soledad and San Quentin, went on to get a doctorate in counseling. The contributions from prisoners include an essay on enforced celibacy by Mumia Abu-Jamal, as well as fiction and poetry on prison health policy, violence, and intimacy. The creative contributions were selected from the more than 200 submissions received from prisoners. Author note: Don Sabo, Professor of Social Sciences at D'Youville College in Buffalo, is author or editor of five books, most recently, with David Gordon, *Men's Health and Illness: Gender, Power, and the Body* and, with Michael Messner, *Sex, Violence, and Power in Sports: Rethinking Masculinity*. Sabo has appeared on *The Today Show*, *Oprah*, and *Donahue*. Terry A. Kupers, M.D., a psychiatrist, teaches at the Wright Institute in Berkeley. He is the author of four books, editor of a fifth. His latest books are *Prison Madness: The Mental Health Crisis Behind Bars* and *What We Must Do About It* and *Revisioning Men's Lives: Gender, Intimacy, and Power*. Kupers has served as an expert witness in more than a dozen cases on conditions of confinement and mental health services. Willie London, a published poet, is General Editor of the prison publication *Elite Expressions*. He is currently an inmate at Eastern Corrections. For nine years he was a prisoner at Attica.

*Probation, Parole, and Community Corrections Work in Theory and Practice* is a comprehensive examination of probation, parole, and other correctional practices that are alternatives to incarceration. The textbook covers important topics related to community corrections, including an overview of correctional programs used as alternatives to incarceration (probation, parole, home confinement, and electronic monitoring); the history and development of community correctional practices; current controversies; and legal issues affecting probation, parole, and

community correctional practices. Critical thinking questions in each chapter along with case studies and case scenarios reflect the book's balanced approach to examining community corrections. The emphasis on developing problem solving, report writing, and critical thinking skills makes this book an excellent choice for students who desire to enter the field. Students completing a course using this book will have not only an understanding of the dynamic forces of community corrections but also the skill competence that prepares them for entry-level positions in community corrections agencies.

**Corrections** Little, Brown

After decades of stability from the 1920s to the early 1970s, the rate of imprisonment in the United States has increased fivefold during the last four decades. The U.S. penal population of 2.2 million adults is by far the largest in the world. Just under one-quarter of the world's prisoners are held in American prisons. The U.S. rate of incarceration, with nearly 1 out of every 100 adults in prison or jail, is 5 to 10 times higher than the rates in Western Europe and other democracies. The U.S. prison population is largely drawn from the most disadvantaged part of the nation's population: mostly men under age 40, disproportionately minority, and poorly educated. Prisoners often carry additional deficits of drug and alcohol addictions, mental and physical illnesses, and lack of work preparation or experience. The growth of incarceration in the United States during four decades has prompted numerous critiques and a growing body of scientific knowledge about what prompted the rise and what its consequences have been for the people imprisoned, their families and communities, and for U.S. society. The *Growth of Incarceration in the United States* examines research and analysis of the dramatic rise of incarceration rates and its affects. This study makes the case that the United States has gone far past the point where the numbers of people in prison can be justified by social benefits and has reached a level where these high rates of incarceration themselves constitute a source of injustice and social harm. The *Growth of Incarceration in the United States* examines policy changes that created an increasingly punitive political climate and offers specific policy advice in sentencing policy, prison policy, and social policy. The report also identifies important research questions that must be answered to provide a firmer basis for policy. This report is a call for change in the way society views criminals, punishment, and prison. This landmark study assesses the evidence and its implications for public policy to inform an extensive and thoughtful public debate about and reconsideration of policies.

**A History of the Prison in Africa, Asia and Latin America** The New Press

Winner of the Stowe Prize Winner of the NBCC Prize for Nonfiction This compelling #1 New York Times bestseller examines the legacy of slavery in America—and how both history and activism continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be.

A crime reporter's thrilling account of the infamous 2015 prison break, manhunt, and capture based on interviews with one of the inmates who pulled it off. On June 6, 2015, inmates Richard Matt and David Sweat escaped from Clinton Correctional Facility, New York State's largest maximum-security prison. The media was instantly obsessed with the story: Aided by a prison seamstress, who smuggled hacksaw blades, chisels, and drill bits inside the facility via a vat of raw hamburger meat, the two convicted murderers sliced their way through steel cell walls, navigated a maze of tunnels, climbed out of a manhole, and walked off into the night. After nearly three weeks on the run, US Customs and Border Patrol agent Chris Voss shot and killed Matt on June 26, 2015. Two days later, New York State Police Sgt. Jay Cook shot

Sweat twice in the back. He survived. While some details of this elaborate modern-day prison break have come to light, only one reporter has spoken directly to Sweat. In *Wild Escape*, he answers the most important question in the case: Of all the inmates who dream of escape, why was he the one who could make it happen? "The details Marcus has amassed are comprehensive and stunning and serve to heighten the impact of her story. This is first-rate journalism, written about a crime and a criminal from the inside out." —Stephen Singular, *New York Times*-bestselling author of *Talked to Death* "Marcus writes with genuine narrative power. Her depth of research provides insights into this historical escape that we can't get anywhere else." —Anthony Flacco, *New York Times* and international bestselling author of *The Road Out of Hell*

**Environmental Corrections** Diversion Books

A new paradigm for supervising offenders in the community Environmental Corrections is an innovative guide filled with rich insights and strategies for probation and parole officers to effectively integrate offenders back into the community and reduce recidivism. Authors Lacey Schaefer, Francis T. Cullen, and John E. Eck move beyond traditional models for interventions and build directly on the applied focus of environmental criminology theories. Using this approach, the authors answer the question of what officers can do to decrease opportunities for an offender to commit a crime. Readers will learn how to recognize and assess specific criminal opportunities in an offender's past and gain the tools and strategies they need to design an individualized supervision plan that channels offenders away from these criminogenic situations.

#1 NEW YORK TIMES BESTSELLER • Pulitzer Prize-winning author Jon Meacham helps us understand the present moment in American politics and life by looking back at critical times in our history when hope overcame division and fear. ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The Christian Science Monitor • Southern Living Our current climate of partisan fury is not new, and in *The Soul of America* Meacham shows us how what Abraham Lincoln called the "better angels of our nature" have repeatedly won the day. Painting surprising portraits of Lincoln and other presidents, including Ulysses S. Grant, Theodore Roosevelt, Woodrow Wilson, Franklin D. Roosevelt, Harry S. Truman, Dwight Eisenhower, and Lyndon B. Johnson, and illuminating the courage of such influential citizen activists as Martin Luther King, Jr., early suffragettes Alice Paul and Carrie Chapman Catt, civil rights pioneers Rosa Parks and John Lewis, First Lady Eleanor Roosevelt, and Army-McCarthy hearings lawyer Joseph N. Welch, Meacham brings vividly to life turning points in American history. He writes about the Civil War, Reconstruction, and the birth of the Lost Cause; the backlash against immigrants in the First World War and the resurgence of the Ku Klux Klan in the 1920s; the fight for women's rights; the demagoguery of Huey Long and Father Coughlin and the isolationist work of America First in the years before World War II; the anti-Communist witch-hunts led by Senator Joseph McCarthy; and Lyndon Johnson's crusade against Jim Crow. Each of these dramatic hours in our national life have been shaped by the contest to lead the country to look forward rather than back, to assert hope over fear—a struggle that continues even now. While the American story has not always—or even often—been heroic, we have been sustained by a belief in progress even in the gloomiest of times. In this inspiring book, Meacham reassures us, "The good news is that we have come through such darkness before"—as, time and again, Lincoln's better angels have found a way to prevail. Praise for *The Soul of America* "Brilliant, fascinating, timely . . . With compelling narratives of past eras of strife and disenchantment, Meacham offers wisdom for our own time." —Walter Isaacson "Gripping and inspiring, *The Soul of America* is Jon Meacham's declaration of his faith in America." —Newsday "Meacham gives readers a long-term perspective on American history and a reason to believe the soul of America is ultimately one of kindness and caring, not rancor and paranoia." —USA Today

Effective treatment and preparation for successful reintegration can be better achieved if the needs and risks of incarcerated offenders are taken into consideration by correctional practitioners and scholars. *Special Needs Offenders in Correctional Institutions* offers a unique opportunity to examine the different populations behind bars (e.g. chronically and mentally ill, homosexual, illegal immigrants, veterans, radicalized inmates, etc.), as well as their needs and the corresponding impediments for rehabilitation and reintegration. Author Lior Gideon takes a rehabilitative and reiterative approach to discuss and differentiate between the needs of these various categories of inmates, and provides in depth discussions-not available in other correctional texts-about the specific needs, risks and policy recommendations when working with present-day special needs offenders. Each chapter is followed by suggested readings and relevant websites that will enable readers to further enhance understanding of the issues and potential solutions discussed in the chapter. Further, each chapter has discussion questions specifically designed to promote class discussions. The text concludes with a theoretical framework for future policy implications and practices.

**Introduction to Corrections** Routledge

From an award-winning civil rights lawyer, a profound challenge to our society's normalization of the caging of human beings, and the role of the legal profession in perpetuating it Alec Karakatsanis is interested in what we choose to punish. For example, it is a crime in most of America for poor people to wager in the streets over dice; dice-wagerers can be seized, searched, have their assets forfeited, and be locked in cages. It's perfectly fine, by contrast, for people to wager over international currencies, mortgages, or the global supply of wheat; wheat-wagerers become names on the wings of hospitals and museums. He is also troubled by how the legal system works when it is trying to punish people. The bail system, for example, is meant to ensure that people return for court dates. But it has morphed into a way to lock up poor people who have not been convicted of anything. He's so concerned about this that he has personally sued court systems across the country, resulting in literally tens of thousands of people being released from jail when their money bail was found to be unconstitutional. Karakatsanis doesn't think people who have gone to law school, passed the bar, and sworn

to uphold the Constitution should be complicit in the mass caging of human beings—an everyday brutality inflicted disproportionately on the bodies and minds of poor people and people of color and for which the legal system has never offered sufficient justification. Usual Cruelty is a profoundly radical reconsideration of the American “injustice system” by someone who is actively, wildly successfully, challenging it.

*The Battle for Our Better Angels* Verso

From the Pulitzer Prize-winning scholar, a timely history of the constitutional changes that built equality into the nation's foundation and how those guarantees have been shaken over time. The Declaration of Independence announced equality as an American ideal, but it took the Civil War and the subsequent adoption of three constitutional amendments to establish that ideal as American law. The Reconstruction amendments abolished slavery, guaranteed all persons due process and equal protection of the law, and equipped black men with the right to vote. They established the principle of birthright citizenship and guaranteed the privileges and immunities of all citizens. The federal government, not the states, was charged with enforcement, reversing the priority of the original Constitution and the Bill of Rights. In grafting the principle of equality onto the Constitution, these revolutionary changes marked the second founding of the

United States. Eric Foner's compact, insightful history traces the arc of these pivotal amendments from their dramatic origins in pre-Civil War mass meetings of African-American “colored citizens” and in Republican party politics to their virtual nullification in the late nineteenth century. A series of momentous decisions by the Supreme Court narrowed the rights guaranteed in the amendments, while the states actively undermined them. The Jim Crow system was the result. Again today there are serious political challenges to birthright citizenship, voting rights, due process, and equal protection of the law. Like all great works of history, this one informs our understanding of the present as well as the past: knowledge and vigilance are always necessary to secure our basic rights.
