No matter how much is learned, if that learning remains in our heads, it is not enough. Unless learning touches our hearts, it's never going to bring us the wisdom we seek, the peace we desire, or the intimacy and connection for which we yearn. A new and more receptive way of knowing is needed, and is found in this course for the heart. "A Course of Love" was received by Mari Perron and given to be a "new" course in miracles. It is for the heart what "A Course in Miracles" is for the mind. For many, it is the next step in a journey already begun.

The Routledge Handbook of Language Revitalization is the first comprehensive overview of the language revitalization movement, from the Arctic to the Amazon and across continents. Featuring 47 contributions from a global range of top scholars in the field, the handbook is divided into two

parts, the first of which expands on language revitalization issues of theory and practice while the second covers regional perspectives in an effort to globalize and decolonize the field. The collection examines critical issues in language revitalization, including: language rights, language and well-being, and language policy; language in educational institutions and in the home; new methodologies and venues for language learning; and the roles of documentation, literacies, and the internet. The volume also contains chapters on the kinds of language that are less often researched such as the revitalization of music, of whistled languages and sign languages, and how languages change when they are being revitalized. The Routledge Handbook of Language Revitalization is the ideal resource for graduate students and researchers working in linguistic anthropology and language revitalization and endangerment.

"Gabrielle is the real thing. I respect her work immensely." —Dr. Wayne Dyer "A new role model." —The New York Times "I came to one of Bernstein's monthly lectures and got my first look at the woman I'd one day unabashedly refer to as 'my guru.'" —Elle From #1 New York Times bestselling author Gabrielle Bernstein comes a clear, proactive, step-by-step process to release the beliefs that hold you back from living a better life. This six-step practice offers many promises. Petty resentments will disappear, compassion will replace attack, the energy of resistance will transform into freedom and you'll feel more peace and happiness than you've ever known. I can testify to these results because I've lived them. I've never felt more freedom and joy than I have when writing and practicing these steps. My commitment to healing my own relationship to judgment has changed my life in profound ways. My awareness of my judgment has helped me become a more mindful and conscious person. My willingness to heal these perceptions has set me free. I have been able to let go of resentments and jealousies, I can face pain with curiosity and love, and I forgive others and myself much more easily. Best of all, I have a healthy relationship to judgment so that I can witness when it shows up and I can use these steps to quickly return to love. The Judgment Detox is an interactive six-step process that calls on spiritual principles from the text A Course in Miracles, Kundalini yoga, the Emotional Freedom Technique (aka Tapping), meditation, prayer and metaphysical teachings. I've demystified these principles to make them easy to commit to and apply in your daily life. Each lesson builds upon the next to support true healing. When you commit to following the process and become willing to let go, judgment, pain and suffering will begin to dissolve. And the miracles will keep coming. Once you begin to feel better you start to release your resistance to love. The more you practice these steps, the more love enters into your consciousness

and into your energetic vibration. When you're in harmony with love, you receive more of what you want. Your energy attracts its likeness. So when you shift your energy from defensive judgment to free-flowing love your life gets awesome. You'll attract exactly what you need, your relationships will heal, your health will improve and you'll feel safer and more secure. One loving thought at a time creates a miracle. Follow these steps to clear all blocks, spread more love and live a miraculous life.

Everybody is aware, all seven billion of us. We are aware of thoughts, feelings, sensations, and perceptions. All people share the experience of being aware, but relatively few people are aware that they are aware. Most people's lives consist of a flow of thoughts, images, ideas, feelings, sensations, sights, sounds, and so on. Very few people ask, 'What is it that knows this flow of thoughts, feelings, and perceptions? With what am I aware of my experience?' The knowing of our being—or rather, awareness's knowing of its own being in us—is our primary, fundamental and most intimate experience. It is in this experience that the peace, happiness and love for which all people long reside. The happiness we have sought so long outside of ourselves, in situations, objects and

relationships, turns out to be always present and available in the simple knowing of our own being as it truly is. The knowing of our own being shines in each of us as the experience 'I am' or 'I am aware', or simply the knowledge 'I'. This obvious, familiar and intimate experience has no objective qualities and is, therefore, overlooked or ignored by the majority of people. This overlooking of our own being is the ultimate cause of unhappiness. What is the nature of the experience of being aware or awareness itself? The exploration of this question is the subject matter of this book and the essence of the Direct Path to peace and happiness. \* \* \* The Essence of Meditation Series presents meditations on the essential, non-dual understanding that lies at the heart of all the great religious and spiritual traditions, compiled from contemplations led by Rupert Spira at his meetings and retreats. This simple, contemplative approach, which encourages a clear seeing of one's experience rather than any kind of effort or discipline, leads the reader to an experiential understanding of their own essential being and the peace and fulfillment that are inherent within it. Being Aware of Being Aware is the first and introductory volume in The Essence of Meditation Series.

Discover the central tenets of the ACIM movement—and how they can work miracles in your life—with this essential guide to the classic spiritual text. In 1976, a mysterious "Inner Voice" called out to Helen Schucman, dictating a system of belief that ultimately became A Course in Miracles. This book, totaling 1,333 pages, went on to sell more than two million copies around the world. Its lessons are meant to be digested one at a time; those who study ACIM do so over years, often struggling to progress through its resonant but difficult-to-comprehend truths. Jon Mundy—who knew the Courses founders and the text from the very beginning—is the ideal guide to the book's central tenets. Using passages from ACIM, Mundy illuminates its teachings on such subjects as the self, forgiveness, desire, health, money, addiction, and the afterlife. Through his lively storytelling and in-depth knowledge of the Course, readers gain wisdom that might otherwise have taken them a

lifetime to grasp.

There is a free companion website with concordances and source material libraries. An optional 4.5 Gb/DVD containing an enhanced edition of the website, concordances, over 10,000 pages of source material, a synthesized audio reading of the 31 chapter text and several editions of the King James Bible is available in some editions. The Hidden Hypotheses Behind the Big Bang It is quite unavoidable that many philosophical a priori assumptions lurk behind the debate between supporters of the Big Bang and the anti-BB camp. The same battle has been waged in physics between the determinists and the opposing viewpoint. Therefore, by way of introduction to this symposium, I would like to discuss, albeit briefly, the many "hypotheses", essentially of a metaphysical nature, which are often used without being clearly stated. The first hypothesis is the idea that the Universe has some origin, or origins. Opposing this is the idea that the Universe is eternal, essentially without beginning, no matter how it might change- the old Platonic system, opposed by an Aristote lian view! Or Pope Pius XII or Abbe Lemaitre or Friedmann versus Einstein or Hoyle or Segal, etc. The second hypothesis is the need for a "minimum of hypotheses" -the sim plicity argument. One is expected to account for all the observations with a mini mum number of hypotheses or assumptions. In other words, the idea is to "save the phenomena", and this has been an imperative since the time of Plato and Aristotle. But numerous contradictions have arisen between the hypotheses and the facts. This has led some scientists to introduce additional entities, such as the cosmologi cal constant, dark matter, galaxy mergers, complicated geometries, and even a rest mass for the photon. Some of the proponents of the latter idea were Einstein, de Broglie, Findlay-Freundlich, and later Vigier and myself.
