Daughter of Exile

Butterworth-Heinemann
 In the Company of
 Women explains how
 indirect, or "relational,"
 aggression can hurt
 women and hinder them
 from achieving success
 and harmony in their
 adult lives. Gender
 studies have shown that
 when a goal is in sight,
 men generally use direct
 action to attain it.
 Women, on the other
 hand, have been
 socialized to express
 aggressive actions
 through indirect means-
 using behavior such as
 shunning, stigmatizing,

and With startling insights
 into the meaning of our
 everyday behavior, this
 book offers
 straightforward
 techniques to change
 conflict among women
 into cooperation by
 resolving discords
 peaceably, building
 relationships, and making
 the most of women's
 unique leadership and
 communication skills.

The sweet smell of licorice and the giant candy bar painted on the factory wall at the Eads Bridge

remain locked into the collective memory of generations of St. Louisans. [Candy Men: The Story of Switzer's Licorice](#) tells the story of how two Irish-American families began a candy company in the kitchen of a tenement in St. Louis's Irish slum and showed the world how the American Dream can be built upon a foundation of candy. In a story that passes through three generations, two World Wars, economic depressions, and labor unrest, the Murphys and the Switzers dedicated

their lives to keeping the dream alive until it was put to an end by forces beyond their control. And yet, in an unlikely turn of events, the story continues today with a fresh twist and a renewed life of its own.

It's 1972. Twelve-year-old Joan is sure that she is going to be miserable when her family moves. Then she meets a most unusual girl. Sarah prefers to be called 'Fox,' and lives with her author dad in a rundown house in the middle of the woods. The two girls start writing their own stories together, and

when one wins first place in a student contest, they find themselves recruited for a summer writing class taught by the equally unusual Verla Volante. The Wild Girls brilliantly explores friendship, the power of story, and how coming of age means finding your own answers.

Plan C MIT Press

Bailey was heading home in his steam-powered rocket when he found a message pod. It was only by luck that he spotted it, disabled and drifting in an eccentric orbit around a large M-type asteroid.

Strange to find a message pod so far from interstellar trade routes, drifting through the Asteroid Belt around Old Sol. Bailey picked up the message pod, and notified its owners that he had it. And that was the beginning of the adventure. The next thing he knew, the legendary Gitana, adventurer extraordinaire, was arriving at Bailey's asteroid home, and then he was on a starship, heading for the center of the galaxy!

Trickster Tales The Wild

Girls
Susan Galina and her friend Pat have escaped their normal lives into the elegant, isolated world of the Odyssey, a luxury cruise ship heading from New York to Europe via Bermuda. Pat is working on her doctoral thesis in quantum physics, and Susan is recovering from a recent and unhappy divorce. To Susan's delight, she discovers that her favourite author, Max Merriwell, is also aboard ship, teaching a writers' workshop. Susan's life becomes even more

interesting when she meets Tom Clayton, the handsome chief of security. This cruise looks very promising indeed. But the pleasant shipboard vacation turns dark as the Odyssey passes into the Bermuda Triangle. Each year, Max Merriwell writes three novels: a science fiction novel under his own name, a fantasy novel under the pseudonym Mary Maxwell, and a mystery novel under the pseudonym Weldon Merrimax. The trouble begins when Max receives

a threatening note that appears to come from Weldon Merrimax, Max's own pseudonym. Susan hears wolves howling in the night, the ship's passengers are seized with a dancing mania, and monsters lurk in the ship's corridors. An eyewitness reports a murder - but the victim of the crime is not on the passenger list and the body is nowhere to be found. While others struggle to understand these strange events, Pat seeks the explanation in quantum theory.

A time-travel adventure from the Nebula Award-winning author: "Murphy's [blend] of fantasy and reality honorably recalls the novels of Margaret Atwood" (Publishers Weekly). For generations, the people of the valley have hunted the bear, killing it to draw on its

mystical power. On his first hunt, a young member of the tribe pursues the bear through the wilderness. Moments before their battle begins, the boy plunges into darkness—and awakes in a world beyond his wildest imagination, where nature is corrupted and the boundaries of time mean nothing at all. The researchers who brought him into the future call the Neanderthal boy "Sam." The portal he fell through is the plaything of a billionaire intent on repopulating the world of

its many extinct animals: birds, wolves, and bears. Sam was brought along by accident, but he will find a purpose in these alien surroundings.

Guided by one woman who can see the past and another who can look into the future, the boy who hunted the bear will unlock the mysteries of time itself.
