with this detailed textbook that is closely tailored to the specification and has been endorsed by OCR. Endorsed by OCR for use with the OCR Additional Mathematics specification. This level 3 qualification in Key Stage 4 enables students to study higher level mathematics without having to embark on their AS modules. - Accessible and concise, written by experienced

authors to guide and encourage your higher level students towards success - Includes an introduction to each topic followed by worked examples with commentaries - Provides plenty of practice with hundreds of questions - Ideal for students considering maths at AS/A level, accelerating their progress and aiding their future choices Table of Contents 1. Algebra I - review 2.

Algebra II - techniques 3. Algebra III - polynomials 4. Algebra IV - applications 5. Co-ordinate geometry I 6. Co-ordinate geometry II - applications 7. Trigonometry I 8. Trigonometry II - applications 9. Calculus I - differentiation 10. Calculus II - integration 11. Calculus III - applications to kinematics . Additional Mathematics for Ocr Shing Lee Publishers Pte Ltd New Syllabus Mathematics (NSM) is a series of

textbooks specially designed to provide valuable learning experiences to engage the hearts and minds of students sitting for the GCE O-level examination in Mathematics. Included in the textbooks are Investigation, Class Discussion, Thinking Time, Journal Writing, Performance Task and Problems in Real-World Contexts to support the teaching and

learning of Mathematics. Every chapter begins with a chapter opener which motivates students in learning the topic. Interesting stories about Mathematicians, real-life examples and applications are used to arouse students' interest and curiosity so that they can appreciate the beauty of Mathematics in their surroundings. The use of ICT helps students to visualise and manipulate

mathematical objects more easily, thus making the learning of Mathematics more interactive. Ready-to-use interactive ICT templates are available at <http://www.shinglee.com.sg/StudentResources/>

Cambridge Additional Mathematics IGCSE® (0606) O Level (4037) 2nd Edition Shing Lee Publishers Pte Ltd

New Syllabus Mathematics is a series of four books.

These books follow the Mathematics Syllabus for Secondary Schools, implemented from 2007 by the Ministry of Education, Singapore. The whole series covers the complete syllabus for the Singapore-Cambridge GCE  O  Level Mathematics. The sixth edition of New Syllabus Mathematics retains the goals and objectives of the previous edition, but has been revised to meet the

needs of the current users, to keep materials up-to-date as well as to give students a better understanding of the contents. All topics are comprehensively dealt with to provide students with a firm grounding in the subject. Explanations of concepts and principles are precise and written clearly and concisely with supportive illustrations and examples. Examples and exercises have been

carefully graded to aid students in progressing within and beyond each level. Those exercises marked with a require either more thinking or involve more calculations. Numerous revision exercises are provided at appropriate intervals to enable students to recapitulate what they have learnt. Some interesting features of this series include the following:  an interesting

introduction at the beginning of each chapter complete with photographs or graphics  brief specific instructional objectives for each chapter  Just For Fun arouses the students'  interests in studying mathematics  Thinking Time encourages students to think creatively and go deeper into the topics  Exploration provides opportunities for students to learn actively and independently

 For Your Information provides extra information on mathematicians, mathematical history and events etc.  Problem Solving Tips provides suggestions to help students in their thinking processes. We also introduce problem solving heuristics and strategies systemically throughout the series.  Your Attention alerts students to misconceptions. *New Syllabus Mathematics*

Hodder Education Additional Mathematics for Grade 10 is the first book in a series of three designed to cover the material in the Zambian Joint Examination for the School Certificate and General Certificate of Education Ordinary Level Additional Mathematics (4030) syllabus. New Syllabus Additional Mathematics (NSAM) is a series of textbooks and workbooks designed to prepare students for the Singapore-Cambridge GCE O-level examination in Additional Mathematics. Together with the textbook, the workbook will provide students with ample practice to apply the various skills and concepts learnt to solving problems in both examination and real-life situations. The workbook contains the following features:

REVISION NOTES
Revision Notes are found at the start of each chapter. They emphasise the important concepts and formulae in the chapter.

PRACTICE QUESTIONS
Practice Questions provide students with a wide range of questions for further practice. The questions are classified into three levels of difficulty. ♦

questions require students to use specific skills and concepts in the chapter directly to solve problems. ♦ questions require students to apply their skills and concepts to solve problems. ♦ questions require students to apply various skills and concepts, including the use of problem-solving skills, to solve problems. Revision Exercise The Revision

Exercise is found after every few chapters to help students to recall and consolidate all the concepts learnt in these chapters. Mid-Year Specimen Papers and End-of-Year Specimen Papers The Mid-Year Specimen Papers and End-of-Year Specimen Papers have been written to follow closely to the format of school's Mid-Year and End-of-Year examinations. It is hoped that when

students use this book, to reinforce the concepts that they are weak in, they will eventually gain success in Additional Mathematics. Additional Mathematics for Grade 10 Shing Lee Publishers Pte Ltd New Syllabus Mathematics Workbook (Express) is written in line with the new Singapore-Cambridge GCE   Level Examination and the new initiatives of the Ministry of Education. The workbook

consists of exercises which prepare students for their examinations. The more difficult questions are marked with an *. To encourage student-centred learning, the workbook includes non-routine types of worksheets that are classified under the section, Alternative Assessment. These worksheets encourage students to learn independently through

<p>carefully-guided steps and the use of IT. Students are motivated to investigate mathematical concepts with various methods and think critically, so that they will understand and appreciate the concepts better. The teacher can gauge the students' learning by assessing the work with the scoring rubric found at the end of the relevant worksheets. The workbook is accompanied</p>	<p>with a CD-ROM that contains templates to be used with some worksheets.
