Magazine (BSM) is an award winning United States-based trade magazine read by builders, developers and general contractors using or considering using innovative construction technologies. Once commonly known as "pre-fab," today's modern building systems employ innovative materials and techniques to create residential or commercial structures in a factory setting in a fraction of the time it takes to site build. BSM focuses mainly on log, timber frame, modular, panel, and structural insulated panel building technologies. Since factory fabrication and site preparation take place simultaneously, structures are finished and ready for occupancy in weeks, rather than months or years as required by conventional site-building schedules.

General Catalog of the Creamery Package Mfg. Company, No. 350 Comprising a Complete Line of Apparatus and Supplies for Creameries, Cheese Factories, Milk Dealers, Dairymen, and Ice Cream Makers, Refrigerating and Ice-making Machinery, Egg Cases and Fillers Texas Home Landscaping, 3rd edition

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

The Lumber Manufacturer and Dealer Rowman & Littlefield

Expert advice on treehouse building An inspirational and informative guide to building treehouses The author's company, Tree Top Builders, has built more than 400 treehouses worldwide. Includes plans, tips, and more than 100 color photographs

Backyard Treehouses is an inspirational how-to book for those who want to build their own treehouses while minimizing the

impact on their trees and building something that is safe and enduring. It's designed for do-it-yourself builders with limited time and money who still want to build something great for their families. With step-by-step color photos, building plans, helpful tips and sidebars, master carpenter and treehouse builder Dan Wright demonstrates the range, from simple to more complex, of what a treehouse can be, and how it can enhance the backyard lifestyle. Dan Wright is a master carpenter and an ISA certified arborist who founded Tree Top Builders, Inc., based in Pennsylvania. He also owns Treehouse Supplies, Inc., which is the leading supplier of treehouse plans, treehouse attachment hardware, and treehouse accessories worldwide.

Start-to-finish Decks Taunton Press

The editors and contributors to Fine Homebuilding magazine have combined to show homeowners how to save money and provide greater comfort in their houses.
