Proficiency Masterclass: Student's Book Oxford University Press, USA

This text offers a thorough analysis of how listening, speaking, reading and writing, as well as grammar and vocabulary, are tested in a range of exams, along with appropriate teaching strategies for each. Also includes a guide to all major international English language exams.

Advanced Masterclass CAE. Cambridge University Press

This book has been designed by combining the goodness of the original Wren & Martin text, High School Grammar & Composition, and specialized content developed by a panel of competitive examination experts in the area of the English language. The USP is therefore adapting a classical text to the needs of the various admission and recruitment competitive examination aspirants. Its exhaustive coverage ensures that virtually no competitive examination remains untouched. Students preparing for descriptive tests such as UPSC (Compulsory English and General English Papers of Main Exams) and state PCS examinations, Judicial Services examination, Indian Forest Service examination, Statistical Services and many other examinations in which subjective papers/tests are mandatory will find this book immensely useful. The book is also a boon for those students who are preparing for objective tests such as Banking and Insurance, SSC, UPSC preliminary, Defence Services, Law entrance, Business School entrance examinations, and many other admission and recruitment examinations. A unique feature of this book is demonstration of the connectedness of the concepts and their applications visually, with the help of arrows and pointers. The aspirant will also find questions from recent examinations on virtually every page of the book. An index of examination-wise

questions has been included so that the aspirant can choose the sections according to the targeted examination and focus more.

Topic-wise distribution of questions in English examination papers - both descriptive and objective - will also help aspirants to undertake a very well directed test-prep program using the book.

«This workbook aims at examining and practicing different writing techniques working on different text-types which mostly appear here in the form of articles, letters and brochures. Prior to the proper use of a writing technique, it is important both to recognize the purpose of the source text and to clarify the predominant function that the text vehicles. With regard to this, a complex but practical analysis is provided by Jakobson's model of communication, which explains communication by means of six factors and related communicative functions».
