SPQR: A HISTORY OF ANCIENT ROME - SUMMARY & HIGHLIGHTS PLEASE NOTE: This is a summary and analysis of the book and NOT the original book. SPQR: A HISTORY OF ANCIENT ROME masterfully tells the story of Rome from its inception as a small Italian village to the sprawling empire ruled by the fourteen emperors. From the humble, if not treacherous, beginnings of Romulus to the fall of the Republic with Julius Caesar SPQR goes behind the scenes of the greatest imperial power the ancient world had ever seen. Rome was a land built on mythical battles taking place in Italy until one leader took the idea of expansion and annexation to another level. As Sicily falls into the hands of the Romans all the way to the fall of Britain, Beard walks the reader through the progression of Roman rule. PLEASE NOTE: This is a summary and analysis of the book and NOT the original book.

This book presents the legislation that formed the basis of Roman law - The Laws of the Twelve Tables. These laws, formally promulgated in 449 BC, consolidated earlier traditions and established enduring rights and duties of Roman citizens. The Tables were created in response to agitation by the plebeian class, who had previously been excluded from the higher benefits of the Republic. Despite previously being unwritten and exclusively interpreted by upper-class priests, the Tables became highly regarded and formed the basis of Roman law for a thousand years. This comprehensive sequence of definitions of private rights and procedures, although highly specific and diverse, provided a foundation for the enduring legal system of the Roman Empire.

The core idea of the book of Romans is that we are saved from sin by the grace of Christ. The apostle Paul unpacks the power of grace in a way that can completely change your life... In this six-session Bible study (DVD/video streaming not included)—the first of the 40 Days Through the Book series—Max Lucado welcomes you and your group into the knowledge and freedom of grace with his exploration of Paul's letter to the Roman church. Throughout the study, you'll explore the book of Romans with Max to gain a deeper understanding of its context and content, focusing on central truths such as: The extent and power of sin. The amazing reality and availability of God's grace. The

battle we're still in, and the hope we have despite the lies of the enemy. The grand story—from creation to restoration—that we're all a part of. The call to live in fellowship with each other and with Christ. When we truly understand the power of grace, it sets us free from having to do good, so that we can do good. A true understanding of grace should not shackle us to works but liberate us to live in the presence of Christ. 40 Days Through the Book series: Each of the studies in this series, taught by a different pastor or Bible teacher on a specific book of the Bible, is designed to help you more actively engage with God's Word by understanding its background and culture and applying it in a fresh way to your life. Throughout each study, you'll be encouraged to read through the corresponding book in the New Testament at least once during the course of 40 days. Designed for use with the Romans: In the Grip of Grace Video Study available on DVD or streaming video, sold separately.

Fran Rutherford's two-volume Ancient Rome (Student Book and Teacher's Guide) provides an ideal course for parents who homeschool high school students and for teachers of secondary education who wish to introduce their students to the great books of Western civilization, "the best that has been thought and said," in Matthew Arnold's famous phrase. The choice of great books is appropriate, balanced, and coherent—each book illuminating an important facet of Roman thought and culture and embodying the moral wisdom of the Greek mind. The course covers Livy's Early History of Rome and War with Hannibal, Sallust's Conspiracy of Catiline, Cicero's Attack on an Enemy of Freedom and Attack on Misgovernment, Tacitus' The Annals of Imperial Rome, Virgil's The Aeneid, Ovid's Metamorphoses, Marcus Aurelius' Meditations, Early Christian Writings, St. Augustine's Confessions and City of God, Plautus' The Brothers Menaechmi, Terence's The Brothers—a rich banquet for the mind that integrates history, literature, and philosophy for a beginning humanities student. Comprised of brief but substantive introductions to the authors and to the works, the book then poses simple but penetrating questions about each chapter or major part of the book. It also presents probing questions for further reflection and discussion. For example, the questions at the end of a chapter test simple reading comprehension: "What virtue did Scipio pride himself in?" "What did Scipio do the day after taking New Carthage?" The Questions for Further Thought are contemplative and thought-provoking: "What was the significance of the names Trebia, Trasimene and Cannae?" and "Do modern people have the staying power to remain at war for such protracted periods as we saw in the study of Ancient Rome? Why?" The Teacher's Guide of course offers the answers to the factual questions, but it provides special insights to address the Questions for Further Thought. "Why did Turnus lament his escape from death?" To these ancient warriors, death in battle was a guarantee that their memory would be honored. They were concerned about that legacy and preferred that to an escape from death which carried no respect." The questions and answers are always lucid, straightforward and penetrating. The other features of the book that make it a valuable resource are the maps, illustrations, vocabulary, and explanation of technical terms. The map of Hannibal's route, a diagram of the Roman theater, and the Words to Know at the end of each chapter (e.g., pillory, scruples, desultory, cognomen) all broaden the mind and provide breadth and depth to the course. In short, these two volumes provide a bone fide traditional, classical liberal arts education that introduces students to the reality of philosophical or universal truth, to the

unchanging natural moral law that explains the nature of tragedy and the events of history, and to the Romans' passionate love of knowledge and desire for glory. It transmits to students the patrimony of Roman civilization—the culture that discerned the difference between living and living well, between being "civilized" and being "barbaric." For students to know these perennial truths about human nature and the human condition is the beginning of wisdom—the goal of all true education.

**Intelligence Activities in Ancient Rome** Aquinas & More

This study of Ancient Rome offers a fascinating glimpse of what Roman society was like—from fashion, to food, to politics and recreation—gathered from literary works, art, and archaeological remains. While the political history and prominent figures of Ancient Rome are well known, accounts of daily life in that time and place often remain untold. This fascinating encyclopedia explores this period from a social and cultural perspective, digging into the day-to-day activities of how Romans dressed, what they ate, how they worked, and what they did for fun. Drawing from recent archaeological evidence, author James W. Ermatinger explores the everyday lives of Roman citizens of all levels and classes. This book is organized into ten sections: art, economics, family, fashion, food, housing, politics, recreation, religion, and science. Each section contains more than two dozen entries that illuminate such topics as slavery as a social movement; the menus of peasants, slaves, and the elite; and the science and engineering solutions that became harbingers for today's technology. The work contains a selection of primary documents as well as a bibliography of print and Internet resources.
