The Contemporary Spanish-American Novel provides an accessible introduction to an important World literature. While many of the authors covered—Aira, Bolaño, Castellanos Moya, Vázquez—are gaining an increasing readership in English and are frequently taught, there is sparse criticism in English beyond book reviews. This book provides the guidance necessary for a more sophisticated and contextualized understanding of these authors and their works.

Underestimated or unfamiliar Spanish American novels and novelists are introduced through conceptually rigorous essays. Sections on each writer include: \*the author's reception in their native country, Spanish America, and Spain \*biographical history \*a critical examination of their work, including key themes and conceptual concerns \*translation history \*scholarly reception The Contemporary Spanish-American Novel offers an authoritative guide to a rich and varied novelistic

tradition. It covers all demographic areas, including United States Latino authors, in exploring the diversity of this literature and its major themes, such as exile, migration, and gender representation.

Jen Beagin's funny, moving, fearless debut novel introduces an unforgettable character, Mona—almost 24, cleaning houses to get by, emotionally adrift. Handing out clean needles to drug addicts, she falls for a recipient who proceeds to break her heart in unimaginable ways. She decamps to Taos, New Mexico, for a fresh start, where she finds a community of seekers and cast-offs. But they all have one or two things to teach her—the pajama-wearing, blissed-out New Agers, the slightly creepy client with peculiar tastes in controlled substances, the psychic who might really be psychic. Always just under the surface are her memories of growing up in a chaotic,

destructive family from which she's trying to disentangle herself. The story of her journey toward a comfortable place in the world and a measure of self-acceptance is psychologically acute, often surprising, and entirely human.

This essay collection examines the theory and history of graphic narrative as one of the most interesting and versatile forms of storytelling in contemporary media culture. Its contributions test the applicability of narratological concepts to graphic narrative, examine aspects of graphic narrative beyond the 'single work', consider the development of particular narrative strategies within individual genres, and trace the forms and functions of graphic narrative across cultures. Analyzing a wide range of texts, genres, and narrative strategies from both theoretical and historical perspectives, the international group of scholars gathered here offers state-of-the-art research on graphic narrative in the context of an increasingly postclassical and transmedial narratology. This is the revised second edition of *From Comic Strips to Graphic Novels*, which was originally published in the *Narratologia* series.

Women in Love follows lives of the Brangwen sisters, Ursula a schoolteacher, and Gudrun a painter. They meet two men who live nearby, school inspector Rupert Birkin and Gerald Crich, heir to a coal-mine, and the four become friends. Ursula and Birkin begin a romantic friendship, while Gudrun and Gerald eventually begin a love affair. The emotional relationships thus established are given further depth and tension by an intense psychological and physical attraction between Gerald and Rupert. All four are deeply concerned with questions of society, politics, and the relationship between men and women. The novel ranges over the whole of British society before the time of the First World War and eventually concludes in the snows of the Tyrolean Alps. *Translation and the Reconfiguration of Power Relations* Leuven University Press

'We could be like two people who inject themselves with truth serum, and at long last have to tell it - the truth I want to be able to say to myself, "I bled truth with her," yes, that's what I want. Be a knife for me, and I, I swear, will be a knife for you.' An awkward, neurotic seller of rare books writes a desperate letter to a beautiful stranger whom he sees at a class reunion. This simple, lonely attempt at seduction begins a love affair of words between Yair and Miriam, two married, middle-aged adults, dissatisfied with their lives, yearning for the connection that has always eluded them - and, eventually, reawakened to feelings that they thought had passed them by. Their correspondence unfolds into an exchange of their most naked confessions: of desire, childhood tragedies, joys, and humiliations. Through the dialogue between Yair - a family man and surprisingly successful adulterer, whose guarded letters reveal a life of duplicity - and Miriam, at first deceptively open and warm, who fills her life with distraction to avoid a past full of painful secrets, BE MY KNIFE explores the nature and the limits of intimacy.

Translating for Children is not a book on translations of children's literature, but a book on translating for children. It concentrates on human action in translation and focuses on the translator, the translation process, and translating for children, in particular. Translators bring to the translation their cultural heritage, their reading experience, and in the case of children's books, their image of childhood and their own child image. In so doing, they enter into a dialogic relationship that ultimately involves readers, the author, the illustrator, the translator, and the publisher. What makes Translating for Children unique is the special attention it pays to issues like the illustrations of stories, the performance (like reading aloud) of the books in translation, and the problem of adaptation. It demonstrates how translation and its context takes precedence can take over efforts to discover and reproduce the original author's intentions. Rather than the authority of the author, the book concentrates on the intentions of the readers of a book in translation, both the translator and the target-language readers.

Earnest, awkward, and painfully shy, sixteen-year-old Assaf is having the worst summer of his life. With his big sister gone to America and his best friend suddenly the most popular kid in their class, Assaf worries away his days at a lowly summer job in Jerusalem city hall and spends his evenings alone, watching television and playing games on the Internet. One morning, Assaf's routine is interrupted by an absurd assignment: to find the owner of a stray yellow lab. Meanwhile, on the other side of the city, Tamar, a talented young singer with a lonely, tempestuous soul, undertakes an equally unpromising mission: to rescue a teenage drug addict from the Jerusalem underworld . . . and, eventually, to find her dog. Someone to Run With is the most popular work to date from "a

writer who has been, for nearly two decades, one of the most original and talented . . . anywhere" (The New York Times Book Review), a bestseller hailed by the Israeli press (and reform politicians such as Shimon Peres) for its mixture of fairy-tale magic, emotional sensitivity, and gritty realism. The novel explores the life of Israeli street kids-whom Grossman interviewed extensively for the novel-and the anxieties of family life in a society racked by self-doubt. Most of all, it evokes the adventure of adolescence and the discovery of love, as Tamar and Assaf, pushed beyond the limits of childhood by their quests, find themselves, and each other.

In the last few decades a number of European scholars have paid an increasing amount of attention to children's literature in translation. This book not only provides a synthetic account of what has been achieved in the field, but also makes us fully aware of all the textual, visual and cultural complexities that translating for children entails.... Students of this subject have had problems in finding a book that attempted an up-to-date and comprehensive review of the field. Gillian Lathey's Reader does just this. For many of us, our earliest and most meaningful experiences with literature occur through the medium of a translated children's book. This volume focuses on the complex interplay that happens between text and context when works of children's literature are translated: what contexts of production and reception account for how translated children's books come to be made and read as they are? How are translated children's books adapted to suit the context of a new culture? Spanning the disciplines of Children's Literature Studies and Translation Studies, this book brings together established and emerging voices to provide an overview of the analytical, empirical and geographic richness of current research in this field and to identify and reflect on common insights, analytical perspectives and trajectories for future interdisciplinary research. This volume will appeal to an interdisciplinary audience of scholars and students in Translation Studies and Children's Literature Studies and related disciplines. It has a broad geographic and cultural scope, with contributions dealing with translated children's literature in the United Kingdom, the United States, Ireland, Spain, France, Brazil, Poland, Slovenia, Hungary, China, the former Yugoslavia, Sweden, Germany, and Belgium.
