No industry has expanded faster than telecommunications, gained so many new users, added so much value, spread so rapidly to the underdeveloped areas of developing countries, done so much to close the digital divide and provide access to e-learning, e-health, and e-commerce across the countries of the Asia Pacific. Telecommunications Development in Asia provides a completely new and comprehensive analysis of the policies adopted throughout the region that have led to the explosive growth of this sector. It is a sequel to the 1995 landmark publication, John Ure (editor) Telecommunications in Asia: Policy, Planning and Development, and like the earlier volume will become a popular and indispensable guide for professionals, policy-makers and regulators working in telecommunications-related sectors. Part One of this new book is thematic. It reviews global best practices across a range of key issues facing the industry, from regulation, competition policy and the provision of universal service, to interconnection between competing networks, the management of radio spectrum for the all-important wireless communications sector, and an assessment of innovation in the telecommunications equipment market. Part Two examines markets across the Asia Pacific region, exploring the themes of Part One through in-depth country studies. Policy and regulations, industry trends and markets are uniquely placed in their historical, economic and political context. No other publication offers such comprehensive insights and understanding of the dynamic of these markets. And like the 1995 book, this one looks likely to stand the test of time.

*Present-Day Corporate Communication* BRILL

This book brings together scholars from different disciplines to examine the evolving patterns of economic organisation across Northeast and Southeast Asia against the backdrop of market liberalisation, political changes and periodic economic crises since the 1990s. More specifically, it provides an interdisciplinary account of variations, continuities and changes in the institutional structures that shape business systems and practices and govern innovation patterns, together with analyses of their impact on established systems of economic coordination and control. In line with this analytical focus, the project has three different yet interrelated objectives. In the first place, building on the comparative business systems framework, it elucidates the nature and properties of business system changes and continuities in Asia since the 1990s. Second, it develops novel theoretical propositions concerning the primary causes of these changes and continuities, representing a collective effort to theorise the changing varieties of Asian economic organisation. Finally, it explores the causal pathways through which the changing institutional structures governing business systems have shaped and reshaped innovation strategies and trajectories across the national, sectoral and firm levels of analysis.

*Emergency Risk Communication Strategy* Disha Publications

This book serves as an easy-to-read, up-to-date practical guide on professional corporate communication. The key market for this book is the Asia-Pacific region, mainly because there is a gap in know-how in corporate communication among many industry sectors. In addition, at present, one cannot find a lot of educational literature about corporate communication in the market. Therefore, this guidebook closes that gap. In Asia, companies are starting to realize the importance of corporate communication in all areas (external and internal corporate communication, crisis communication (Example: TEPCO) and political communication / government relations / lobbying). This is triggered not only by the recent high profile and success of targeted (political) communication in the USA, but also by the notorious export-orientation of many Asian companies and their increasingly multi-national orientation (fostered by M&A and foreign investments). In addition, the increasing importance of online communication and digital/social media is an important reason why existing guidebooks on corporate communication have to be reassessed and modernized. This book focuses on all major aspects of modern corporate communication, including online / digital communication, and covers new developments, such as “fake news”, “post-truths”, “political correctness”, “the art of bridging” and other new phenomena in the world of (corporate) communication. Simple cartoon-style drawings supplement the text in order to facilitate reading and learning. Corporate communication professional, as well as students and professors in business/management programs, will be given tools to effectively and successfully plan and implement corporate communication strategies and tactics in all major areas.

How to launch an international design practice and gain projects overseas A comprehensive overview of the rewards and perils of international practice for architects, this book draws on the experience of dozens of leading practitioners to present lessons for the profession. Written primarily for architects, the content is also relevant to any design professional considering working in a foreign country. Among the many questions it helps answer: \* Should my firm consider pursuing work overseas? \* Can a small or medium-sized firm successfully pursue international work? \* How do we

start and how do we get a first project in another country? \* How is international practice different from working in the United States? \* What contract provisions and other measures will help minimize the risks? \* Should we have an overseas office and, if so, what type? \* Should we consider outsourcing to overseas staff as a way to even out workload and increase profits? \* What does the future look like for international practice? The largest section of the book expands on these issues with specific guidelines for working in more than 185 countries. Countries with little potential for North American architects are summarized briefly, while fuller descriptions are provided for more than 25 countries that have been or could be major markets for international design services.

This book offers a comprehensive review of the Communist Party of China's approach to diplomacy, through an extensive evaluation of the major practices and theories behind the Party's diplomacy, with its main achievements in its 90 years of diplomacy highlighted. It delves into the views held by the Communist Party of China on the changing times, the international system, national interests, and developments in China's diplomacy. Other topics covered at length include China's traditional and non-traditional diplomatic practices as well as basic characteristics of the Party's diplomacy. Few books have touched on the Communist Party of China's diplomatic history in detail. China's Diplomacy: Theory and Practice fills the gap by shedding insights on the Communist Party of China's global strategies and diplomatic planning, contributing to the building an international relations theory with Chinese characteristics. Readers will gain a deeper understanding of China's international relations from the forward-looking analyses on the Party's core role in leading China's diplomacy, and the theoretical explanations behind the practices. Contents:Leadership and Achievements of the CPC in China's Diplomacy (YANG Jiemian)Theory:The Concept of the Times and the Foreign Policy of China (YE Qing)The Concept of the International System and China's Foreign Policy (ZHANG Pei)The Concept of National Interests (LIU Zongyi)Scientific Outlook on Development and China's Diplomacy (ZHANG Haibing)Practice:Traditional Deployments of China's Diplomacy (ZHANG Chun)China's Diplomacy in Non-traditional Areas (YU Hongyuan)Party Diplomacy with Chinese Characteristics (NIU Haibin)CPC Advancing with the Times: Future Prospects of China's Diplomacy (YANG Jiemian) Readership: Graduates, researchers, academics and professionals interested in China's diplomacy, international relations, and political science. For those who are interested in how China's diplomacy has evolved from carrying out a ‘revolutionary line’ to pursuing the ‘path of peaceful development’, this is a must-read.” Wang Jisi Dean of the School of International Studies Peking University “This comprehensive volume seeks to lay out the ‘leadership and achievements of the Communist Party of China in China's diplomacy’. It takes a multifaceted approach, deeply rooted in the entire history of the CPC. For a foreign reader, perhaps this book's greatest value lies in its detailed explication of a Chinese perspective on the Party's diplomatic theories and practice over the past ninety years. As such, it provides many valuable insights.” Kenneth Lieberthal Senior Fellow at the Brookings Institution “The book on China's foreign policies is a unique instrument not only to know but also to understand China. It is a guide for knowing the past and informing the future.” Mr Romano Prodi former President of the European Commission and Italy's former Prime Minister
