**Chapter 7 The Nervous System -
 Welcome to Coach Armstrong ...**

Chapter 7 The Nervous System Divisions of the nervous system. Figure 7.2. The two main subdivisions of the nervous system are the central nervous system (CNS) consisting of the brain and spinal cord, and the peripheral nervous system (PNS) consisting of . and is covered by the

meninges. The CNS is the main integration center of the body. Sensory information The Nervous 7 CHAPTER OUTLINE System WB. Also known as the involuntary nervous system • Automatic Functioning A. There are 2 divisions 1. Sympathetic Division 2. Parasympathetic

DivisionChapter 7: The Nervous System Flashcards | QuizletThe autonomic nervous system is the part of the nervous system that supplies the internal organs, including the blood vessels, stomach, intestine, liver, kidneys, bladder, genitals, lungs, pupils, heart, and sweat, salivary, and digestive glands. The autonomic nervous system has two main divisions.Chapter 7 The Nervous System Flashcards | QuizletChapter 7 - The Nervous System. the lowest part of the brain stem that merges into the spinal cord and includes important fiber tracts and control centers

1. heart rate control
2. blood pressure regulation
3. breathing
4. swallowing
5. vomiting.

Chapter 7 - The Nervous System Flashcards | QuizletChapter 7 - The Nervous System. The human body has a very complex job in keeping everything working and functioning properly. The nervous system must coordinate millions of different functions and keep everything working properly. The major components of the nervous system are the brain, spinal cord and nerves.Chapter 7 - The Nervous System - Grygla Public SchoolChapter 7 - The Nervous System I. ORGANIZATION OF THE NERVOUS SYSTEM - master control &

communication. Control behavior of other tissues (increase or decrease activity) in order to maintain homeostasis. *along with endocrine system, which acts slower but has longer effects. - monitor changes, take info to CNS via an afferent pathway, CNS makesChapter 7 - The Nervous SystemFlash cards consisting of information covered in the chapter 7 power point slides "Nervous System" as well as the notes taken in class."Nervous System" - Chapter 7: The Nervous System ...Peripheral Nervous System. -Nervous system subdivision that is composed of the cranial and spinal nerves and ganglia. -A major subdivision that serves as communication lines, linking all parts of the body to the CNS. Somatic Nervous System. Subdivision of the PNS that controls voluntary activities such as the activation of skeletal muscles.Chapter 7 - The Nervous System Flashcards | QuizletChapter 7- The Nervous System. I. Functions of the nervous system A. Sensory input- gathering information

1. To monitor changes occurring inside and outside the body
2. Changes = stimuli

B. Integration

1. To process and interpret sensory input and decide if action is

needed C. Motor output

1. A response to integrated stimuli
- 2.Chapter 7- The Nervous SystemMost are found in the central nervous system Gray matter - cell bodies and unmyelinated fibers Nuclei - clusters of cell bodies within the white matter of the central nervous system Ganglia - collections of cell bodies outside the central nervous systemChapter 7 The Nervous System - Alabama School of Fine ArtsCreated Date: 1/23/2014 12:31:42 PMwww.buckeyevalley.k12.oh.usChapter 7 The Nervous System. The student is expected to: (A) identify the effects of environmental factors such as climate, pollution, radioactivity, chemicals, electromagnetic fields, pathogens, carcinogens, and drugs on body systems; and (B) explore measures to minimize harmful environmental factors on body systems.Chapter 7 The Nervous System - Welcome to Coach Armstrong ...The central nervous system (CNS) is the brain and spinal cord, and the organs of the peripheral nervous system (PNS) are the nerves and ganglia. THE CENTRAL NERVOUS SYSTEM. The CNS consists of the brain and spinal cord, which are located in the dorsal body cavity.Chapter
