Written in recognition of developments in spatial data analysis that focused on differences between places, the first edition of *Local Models for Spatial Analysis* broke new ground with its focus on local modelling methods. Reflecting the continued growth and increased interest in this area, the second edition describes a wide range of methods which account for local variations in geographical properties. What's new in the Second Edition: Additional material on geographically-weighted statistics and local regression approaches A better overview of local models with reference

to recent critical reviews about the subject area Expanded coverage of individual methods and connections between them Chapters have been restructured to clarify the distinction between global and local methods A new section in each chapter references key studies or other accounts that support the book Selected resources provided online to support learning An introduction to the methods and their underlying concepts, the book uses worked examples and case studies to demonstrate how the algorithms work their practical utility and range of application. It provides an overview of a range of different approaches that have been developed and employed within Geographical Information Science (GIScience). Starting with first principles, the author introduces users of GISystems to the principles and application of some widely used local models for the analysis of spatial data, including methods being developed and employed in geography and cognate disciplines. He discusses the relevant software packages that can aid their implementation and provides a summary list in Appendix A. Presenting examples from a variety of disciplines, the book demonstrates the importance of local models for all who make use of spatial data. Taking a problem driven approach, it provides extensive guidance on the selection and application of local models. Millennial Star; 100 No. 04 Pen and Sword

Returns not permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana's future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as Company Daughters: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about. Today's global politics demands a new look at the concept of territory. From so-called deterritorialized terrorist organizations such as al-Qaeda to U.S.-led overthrows of existing regimes in the Middle East, the relationship between territory and sovereignty is under siege. Unfolding an updated understanding of the concept of territory, Stuart Elden shows how the contemporary "war on terror" is part of a widespread challenge to the connection between the state and its territory. Although the importance of territory has been disputed under globalization, territorial relations have not come to an abrupt end. Rather, Elden argues, the territory/sovereignty relation is being reconfigured. Traditional geopolitical analysis is transformed into a critical device for interrogating hegemonic geopolitics after the Cold War, and is employed in the service of reconsidering discourses of danger that include "failed states," disconnection, and terrorist networks. Looking anew at the "war on terror"; the development and application of U.S. policy; the construction and demonization of rogue states; events in Lebanon, Somalia, and Pakistan; and the wars continuing in Afghanistan and Iraq, *Terror and Territory* demonstrates how a critical geographical analysis, informed by

political theory and history, can offer an urgently needed perspective on world events.

And Yet... Calder Publications Limited  
 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a

decision that will haunt him for the rest of his life.

*The Road to Kalamata* is the real-life adventure story of the 4 Commando team of mercenary soldiers, as told by their leader, Col. Mike Hoare. At the close of 1960, the newly formed independent state of Katanga in central Africa recruited Hoare and his team to suppress a rebellion by the Baluba, a fierce tribe of warriors rumored to be cannibals and known to torture and dismember any enemy soldiers unlucky enough to be captured. The events recounted in this book occurred in the Congo during the Katanga campaign of 1961. With insight that only an officer with extensive battlefield experience can bring to this subject, Colonel Hoare chronicles the metamorphosis of 4 Commando from a loose assembly of individuals into a highly organized fighting unit, while also taking the reader inside the minds and hearts of men who sell their military skills for money. What emerges is a compelling and complex portrait of genuine adventurers, "a breed of men which," writes Hoare, "has almost vanished from the face of the earth."

Paladin Press is pleased to make available once again this engaging, colorful and thoughtful account, originally published in 1989, complete with a new foreword by the 20th century's most famous mercenary and one of its most eloquent storytellers. *It Shouldn't Be This Hard to Serve Your Country* Harper Arrington Pub

The beloved literary iconoclast delivers a fresh twenty-first century primer on tarot that can be used with any deck. While

tarot has gone mainstream with a diverse range of tarot decks widely available, there has been no equally mainstream guide to the tarot—one that can be applied to any deck—until now. Infused with beloved iconoclastic author Michelle Tea's unique insight, inviting pop sensibility, and wicked humor, *Modern Tarot* is a fascinating journey through the cards that teaches how to use this tradition to connect with our higher selves. Whether you're a committed seeker or a digital-age skeptic—or perhaps a little of both—Tea's essential guide opens the power of tarot to you. *Modern Tarot* doesn't require you to believe in the supernatural or narrowly focus on the tarot as a divination tool. Tea instead provides incisive descriptions of each of the 78 cards in the tarot system—each illustrated in the charmingly offbeat style of cartoonist Amanda Verwey—and introduces specially designed card-based rituals that can be used with any deck to guide you on a path toward radical growth and self-improvement. Tea reveals how tarot offers moments of deep, transformative connection—an affirming, spiritual experience that is gentle, individual, and aspirational. Grounded in Tea's twenty-five years of tarot wisdom and her abiding love of the cards, and featuring 78 black and white illustrations throughout, *Modern Tarot* is the ultimate introduction to the tradition of the tarot for millennial readers.

Pick up a magazine, turn on the TV, and you'll find few women who haven't been fried, dyed, plucked, or tucked. In short, you'll see no body outlaws. The writers in this groundbreaking anthology reveal a world where bodies come in all their many-splendored shapes, sizes, colors, and textures. In doing so, they expand

the national dialogue on body image to include race, ethnicity, sexuality, and power?issues that, while often overlooked, are intimately linked to how women feel about their bodies. *Body Outlaws* offers stories by those who have chosen to ignore, subvert, or redefine the dominant beauty standard in order to feel at home in their bodies. In a culture where plastic surgery has become nearly as routine as a root canal, this expanded and updated edition of fresh and incisive commentary challenges the media's standard notions of beauty with honesty and humor. Included are several new essays outlining the latest trends in the beauty industry such as botox, plastic surgery, and exercise bulimia, as well as a fascinating analysis of how men are affected by these same rigors, a thorough resource section, and a curriculum guide.

What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In *A House To Remember*, she explains why.
