### **Introduction To Solubility Phet Lab**

#### **Answer Key**

Founded in 2002 by Nobel Laureate Carl Wieman, the PhET Interactive Simulations project at the University of Colorado Boulder creates free interactive math and science simulations.

PhET sims are based on extensive education research and engage students through an intuitive, game-like environment where students learn through exploration and discovery. [PhET salts and solubility equilibria - YouTube](#) Description. Add different salts to water, then watch them dissolve and achieve a dynamic equilibrium with solid precipitate. Compare the

number of ions in solution for highly soluble NaCl to other slightly soluble salts.

Relate the charges on ions to the number of ions in the formula of a salt. Calculate  $K_{sp}$  values.
