Este libro está estructurado en dos módulos que corresponden a sendas unidades de competencia: Módulo 1: Estrategias, técnicas y habilidades para fortalecer el aprendizaje. Módulo 2. Hábitos y métodos de estudio para fomentar habilidades cognitivas. Cada módulo tiene tres partes claramente diferenciadas. En la primera parte (Planteamiento didáctico), se presentan las competencias que se pretenden desarrollar en el módulo. El producto final, con los correspondientes criterios de calidad. La situación didáctica para que demuestren la competencia. La situación didáctica para llegar al logro de las competencias. En la segunda parte de cada módulo (desarrollo temático) se presenta el desarrollo de los principales temas, así como la explicación de los principales conceptos. Asimismo, cuenta con diversas lecturas de apoyo, actividades y ejercicios, con el fin de reforzar el aprendizaje. Se incluyen enlaces tanto a algunos videos que se pueden encontrar en YouTube, como documentos en los que se puede encontrar mayor información sobre los temas expuestos. En la tercera parte de cada módulo (Evaluación del módulo), se presentan algunos lineamientos para llevar a cabo la evaluación de la unidad. Para la evaluación se proponen algunos apoyos: Sugerencias para el examen de conocimientos. Una rúbrica de autoevaluación. Una guía para la coevaluación o evaluación participativa.

Until We Reckon OUP Oxford

James William Nelson Novoa's new book *Being the Nação in the Eternal City* explores, in a set of case studies focusing on seven carefully chosen figures, the presence of Portuguese individuals of Jewish origin in Rome after the initial creation of a tribunal of the Portuguese Inquisition in 1531. The book delves into the varied ways in which the protagonists, representing a cross-section of Portuguese society, went about grappling with the complexities of a New Christian identity, and tracks them through their interactions with Roman society and its institutions. Some chose to flaunt Jewish origins. They espoused a sense of being part of a

distinctive group, the Portuguese New Christian *nação*, that set them apart from other Portuguese. Others chose to blend as much as possible into the broader Iberian world represented at Rome, and avoided calling attention to their family past. All, however, had in their own way to work out the multiple shades of what was involved in being a Portuguese with Jewish roots needing to navigate the social and cultural pathways through Rome, the urban center of the Catholic Church. The book draws on archival research conducted in the Vatican, elsewhere in Italy, in Spain, and in Portugal. It brings a variety of sources to bear on the complex phenomenon of emergent group identities. It also proposes a critical reflection on diasporas, the formation of sub-national communities, and on the structuring of collective memory in Early Modern Europe. The work will be useful to scholars and general readers interested in the Portuguese New Christian diaspora, in sixteenth century Rome, and in the dynamics of community consciousness in Early Modern Europe. In stock. Purchase direct from Baywolf Press / Éditions Baywolf & Portuguese Studies Review. Le nouvel ouvrage de James William Nelson Novoa, *Being the Nação in the Eternal City*, se penche sur la présence des Portugais d'origine juive à Rome après l'installation d'un tribunal de l'Inquisition au Portugal en 1531. Le livre présente, dans un cadre analytique, sept vignettes de personnages historiques. Il documente en particulier les façons dont ces agents, qui représentaient une coupe de la société portugaise contemporaine, choisirent d'affronter les exigences de leur nouvelle identité chrétienne, tout en jouant des interactions avec la société romaine et ses institutions. Certains affichaient leur racines juives. Ils épousaient un sens d'appartenir à un groupe particulier, la *nação* des Chrétiens Nouveaux d'origine portugaise. D'autres choisirent de s'intégrer le plus étroitement possible au petit monde des expatriés ibériques de toutes sortes à Rome, évitant d'afficher le passé. Tous durent affronter les multiples incertitudes pénombreuses d'être Portugais d'origine juive navigant entre les écueils culturels et sociaux de Rome, le siège urbain de l'Église catholique. L'ouvrage est un fruit de recherches menées en Italie, au Vatican, en Espagne, et au Portugal. Il invoque des sources diversifiées pour illuminer le phénomène complexe d'identités collectives émergentes. Il

propose également des réflexions critiques au sujet de diasporas, de communautés sub-étatiques en crèche, et de la mémoire collective au sein de l'Europe moderne naissante. Le livre s'adresse surtout à tous ceux, spécialistes ou non, qui s'intéressent à la diaspora des Nouveaux Chrétiens portugais, la ville de Rome au seizième siècle, et la dynamique formative communautaire au début de la période moderne.

"Profoundly necessary." —Michelle Alexander, *New York Times* columnist and author of *The New Jim Crow* In the eloquent tradition of Bryan Stevenson's *Just Mercy*, an award-winning leader in the movement to end mass incarceration takes on the vexing problem of violent crime. Although over half the people incarcerated in America today have committed violent offenses, the focus of reformers has been almost entirely on nonviolent and drug offenses. Danielle Sered's brilliant and groundbreaking *Until We Reckon* steers directly and unapologetically into the question of violence, offering approaches that will help end mass incarceration and increase safety. Widely recognized as one of the leading proponents of a restorative approach to violent crime, Sered asks us to reconsider the purposes of incarceration and argues persuasively that the needs of survivors of violent crime are better met by asking people who commit violence to accept responsibility for their actions and make amends in ways that are meaningful to those they have hurt—none of which happens in the context of a criminal trial or a prison sentence. Sered launched and directs *Common Justice*, one of the few organizations offering alternatives to incarceration for people who commit serious violent crime and which has produced immensely promising results. Critically, Sered argues that the reckoning owed is not only on the part of those who have committed violence, but also by our nation's overreliance on incarceration to produce safety—at great cost to communities, survivors, racial equity, and the very fabric of our democracy.

An "amazing" novel about the diaspora of Sephardic Jews amid the tumult of twentieth century history (*The Washington Post Book World*). From one of Spain's most celebrated writers, this extraordinary blend of fiction, history, and memoir tells the story

of the Sephardic diaspora through seventeen interlinked chapters. "If Balzac wrote *The Human Comedy*, [Antonio] Muñoz Molina has written the adventure of exile, solitude, and memory," Arturo Pérez-Reverte observed of this "masterpiece" that shifts seamlessly from the past to the present along the escape routes employed by Sephardic Jews across countries and continents as they fled Hitler's Holocaust and Stalin's purges in the mid-twentieth century (*The New York Review of Books*). In a remarkable display of narrative dexterity, Muñoz Molina fashions a "rich and complex story" out of the experiences of people both real and imagined: Eugenia Ginzburg and Greta Buber-Neumann, one on a train to the gulag, the other heading toward a Nazi concentration camp; a shoemaker and a nun who become lovers in a small Spanish town; and Primo Levi, bound for Auschwitz (*Milwaukee Journal-Sentinel*). From the well-known to the virtually unknown, all of Muñoz Molina's characters are voices of separation, nostalgia, love, and endless waiting. "Stories that vibrate beneath the burden of history, that lift with the breath of human life." —Los Angeles Times Book Review "A magnificent novel about the iniquity and horror of fanaticism, and especially the human being's indestructible spirit." —Mario Vargas Llosa "Moving and often astonishing." —The New York Times

Mathematics of the Transcendental Baywolf Press / Éditions Baywolf

In *Mathematics of the Transcendental*, Alain Badiou painstakingly works through the pertinent aspects of category theory, demonstrating their internal logic and veracity, their derivation and distinction from set theory, and the 'thinking of being'. In doing so he sets out the basic onto-logical requirements of his greater and transcendental logics as articulated in his magnum opus, *Logics of Worlds*. Previously unpublished in either French or English, *Mathematics of the Transcendental* provides Badiou's readers with a much-needed complete elaboration of his understanding and use of category theory. The book is vital to understanding the mathematical and logical basis of his theory of appearing as elaborated in *Logics of Worlds* and other works and is essential reading for his many followers.

In 2010, French mathematician Cédric Villani received the Fields Medal, the most coveted prize in mathematics, in recognition of a

proof which he devised with his close collaborator Clément Mouhot to explain one of the most surprising theories in classical physics. *Birth of a Theorem* is Villani's own account of the years leading up to the award. It invites readers inside the mind of a great mathematician as he wrestles with the most important work of his career. But you don't have to understand nonlinear Landau damping to love *Birth of a Theorem*. It doesn't simplify or overexplain; rather, it invites readers into collaboration. Villani's diaries, emails, and musings enmesh you in the process of discovery. You join him in unproductive lulls and late-night breakthroughs. You're privy to the dining-hall conversations at the world's greatest research institutions. Villani shares his favorite songs, his love of manga, and the imaginative stories he tells his children. In mathematics, as in any creative work, it is the thinker's whole life that propels discovery—and with *Birth of a Theorem*, Cédric Villani welcomes you into his.

It is impossible to separate the content of a book from its form. In this study, Filipe Carreira da Silva and Mónica Brito Vieira expand our understanding of the history of social and political scholarship by examining how the entirety of a book mediates and constitutes meaning in ways that affect its substance, appropriation, and reception over time. Examining the evolving form of classic works of social and political thought, including W. E. B. Du Bois's *The Souls of Black Folk*, G. H. Mead's *Mind, Self, and Society*, and Karl Marx's 1844 *Economic and Philosophic Manuscripts*, Carreira da Silva and Brito Vieira show that making these books involved many hands. They explore what publishers, editors, translators, and commentators accomplish by offering the reading public new versions of the works under consideration, examine debates about the intended meaning of the works and discussions over their present relevance, and elucidate the various ways in which content and material form are interwoven. In doing so, Carreira da Silva and Brito Vieira characterize the editorial process as a meaning-producing action involving both collaboration and an ongoing battle for the importance of the book form to a work's disciplinary belonging, ideological positioning, and political significance. Theoretically sophisticated and thoroughly researched, *The Politics of the Book* radically changes our understanding of what doing social and political theory—and its history—implies. It will be welcomed by scholars of book history,

the history of social and political thought, and social and political theory.

¿Podemos desde la educación literaria contribuir a la formación integral del ser humano? ¿Qué incidencia tiene el análisis crítico del discurso literario consumido por el alumnado de las diferentes etapas educativas en torno a la diversidad en el desarrollo de su competencia lectora y literaria? ¿Qué tipos de diversidad adquieren mayor protagonismo en las producciones literarias destinadas a niños y jóvenes? Las respuestas proceden de una didáctica de la literatura centrada en la perspectiva del receptor, el desarrollo de su competencia lectoliteraria y el placer por el texto literario. De la mano de diferentes expertos, el volumen conjuga la vertiente teórica con la praxis de aula a través de estudios y propuestas coherentes para los diferentes niveles educativos. El volumen pretende ofrecer una aproximación rigurosa a una línea de investigación de creciente interés en la educación literaria contemporánea y responder a uno de sus retos: la formación de lectores críticos y reflexivos. Desde esta perspectiva, supone un punto de referencia en cuanto al estudio de los vínculos entre educación literaria y diversidades y a sus posibilidades para el desarrollo de la competencia lectoliteraria y la formación de hábitos lectores como pilar para la construcción de las diferentes identidades y pertenencias del ser humano y el ejercicio crítico de las ciudadanía en sociedades democráticas.

The Mata Book: A Book for Serious Programmers and Those Who Want to Be is the book that Stata programmers have been waiting for. Mata is a serious programming language for developing small- and large-scale projects and for adding features to Stata. What makes Mata serious is that it provides structures, classes, and pointers along with matrix capabilities. The book is serious in that it covers those advanced features, and teaches them. The reader is assumed to have programming experience, but only some programming experience. That experience could be with Stata's ado language, or with Python, Java, C++, Fortran, or other languages like them. As the book says, "being serious is a matter of attitude, not current skill level or knowledge". The author of the book is William Gould, who is also the designer and original programmer of Mata, of Stata, and who also happens to be the president of StataCorp.

Identidad, diversidad y construcción de la ciudadanía Columbia University Press

En el ámbito científico y profesional se abre un doble campo de estudio: por una parte, el establecimiento de protocolos de descripción y de formas de control bibliográfico capaces de tener en cuenta todo tipo de textos; por otra, la articulación del conjunto de procesos de producción, de transmisión y de recepción de textos, en todas sus formas. Dar respuesta a estos cometidos ha sido la motivación de esta obra, en la que las fuentes de información especializada en Ciencias Sociales y Humanidades cobran un doble protagonismo. Por otro lado, se erigen en testimonios, para cada área de conocimiento, de cómo han evolucionado desde el punto de vista heurístico, y por otro, articulan un entramado de redes que permiten vislumbrar los senderos que cada disciplina ha ido conformando en su construcción hermenéutica.

Five Masters of International Law Russell Sage Foundation
If reason is so useful and reliable, why didn't it evolve in other animals and why do humans produce so much thoroughly reasoned nonsense? Hugo Mercier and Dan Sperber argue that reason is not geared to solitary use. It evolved to help justify our beliefs to others, evaluate their arguments, and better exploit our uniquely rich social environment.

Island of Shame Harvard University Press
This book consists of interviews with five distinguished international lawyers from the UK, USA, Uruguay and France, conducted by the editor, Antonio Cassese, between 1993 and 1995. Each interview is preceded by a brief 'intellectual portrait' of the interviewee. In his general introduction Cassese stresses that the interviews, all based on the same questionnaire, were intended to bring out not only the main ideas associated with each scholar in the fields of international law and international relations, but also his intellectual and philosophical background, his general outlook and his views of the prospects for the evolution of the international community. In his final essay, Cassese brings together the main threads of the interviews and points to the parallels and divergences appearing from them. This book offers a unique and important insight into the legal minds and outlook of a select group of prominent scholars of international law and legal institutions during the last years of the twentieth century.

Este libro es un manual de introducción para aquellos estudiantes de Psicología que por primera vez se aproximan al estudio de esta disciplina. Se ha escrito combinando las descripciones sistemáticas de un manual con las reflexiones del ensayo. Aunque el texto recoge lo esencial y básico de la materia, en ocasiones se hacen reflexiones sobre aquellos temas que merecen una especial atención. Puede que, en algunos casos, se pierda en sistemática pero se gana en conciencia y profundidad conceptual, haciendo que el texto sea algo más exhaustivo y entretenido.

The Politics of the Book Oxford University Press, USA

Cuando se escribe, tal vez siempre, pero sobre todo cuando se escribe como resultado o proceso de investigar "se impone la tarea de un pensar que se adelante a recorrer lo que se resiste a ser explorado". Estas palabras de Heidegger, tomadas fuera del contexto en que las dijo, bien pueden aquí servir para salvar a la escritura de su condena platónica y situarla frente al juicio socrático de discriminar "si se escribe bien o mal". Juicio que finalmente sólo podremos llevar a cabo mediante la lectura. Y, paradójicamente, o tal vez no tanto, para llegar al veredicto, en la lectura de nuevo "se impone la tarea de un pensar que se adelante a recorrer lo que se resiste a ser explorado". En ambos casos, ese "adelantarse" y ese "recorrer" son la condición, la posibilidad, de una cierta ética y valor de la escritura y la lectura. Y, en este punto y momento de esta meta-[escritura/(re)lectura], súbitamente surge la resistencia de "lo explorado" frente a este pensar-lo, descubriendo-se/nos ampliado en sí y en un pensar-lo también ampliado: "adelantarse" y "recorrer" valen como condición suficiente, pero no necesariamente necesaria; también vale "retrasarse" y "detenerse" o "revertir". Así pues, tal vez lo auténtico y valioso de la escritura y la lectura esté en el "desfase" espaciotemporal del pensamiento frente a lo que explora al ser escritura y al ser lectura. Y en ese ser escritura y ser lectura, "comprender que el Ser es algo que se consume, hoguera sin leña echando llamas desde el sueño". Desde el sueño y hacia el sueño. Escribiendo/leyendo al soñar, y, soñando al escribir/leer. Si existe tal comprensión, el residuo irreductible (ser) de la combustión inevitable (sueño) se torna bello en su identidad con la esencia (sabiduría): la opacidad del trazo ontológico -al consumarlo (escribir) o consumirlo (leer)- equivale a la

transparencia epistemológica. Ciertamente, toda escritura, toda ...

Monolingualism and Linguistic Exhibitionism in Fiction

University of Texas Press

The year is 1854. In Paris, Francisco Solano -- the future dictator of Paraguay -- begins his courtship of the young, beautiful Irish courtesan Ella Lynch with a poncho, a Paraguayan band, and a horse named Mathilde. Ella follows Franco to Asunción and reigns there as his mistress. Isolated and estranged in this new world, she embraces her lover's ill-fated imperial dream -- one fueled by a heedless arrogance that will devastate all of Paraguay. With the urgency of the narrative, rich and intimate detail, and a wealth of skillfully layered characters, *The News from Paraguay* recalls the epic novels of Gabriel García Márquez and Mario Vargas Llosa.

Private actors are increasingly taking on roles traditionally arrogated to the state. Both in the industrialized North and the developing South, functions essential to external and internal security and to the satisfaction of basic human needs are routinely contracted out to non-state agents. In the area of privatization of security functions, attention by academics and policy makers tends to focus on the activities of private military and security companies, especially in the context of armed conflicts, and their impact on human rights and post-conflict stability and reconstruction. The first edited volume emerging from New York University School of Law's Institute for International Justice project on private military and security

companies, *From Mercenaries to Market: The Rise and Regulation of Private Military Companies* broadened this debate to situate the private military phenomenon in the context of moves towards the regulation of activities through market and non-market mechanisms. Where that first volume looked at the emerging market for use of force, this second volume looks at the transformations in the nature of state authority. Drawing on insights from work on privatization, regulation, and accountability in the emerging field of global administrative law, the book examines private military and security companies through the wider lens of private actors performing public functions. In the past two decades, the responsibilities delegated to such actors - especially but not only in the United States - have grown exponentially. The central question of this volume is whether there should be any limits on government capacity to outsource

traditionally "public" functions. Can and should a government put out to private tender the fulfilment of military, intelligence, and prison services? Can and should it transfer control of utilities essential to life, such as the supply of water? This discussion incorporates numerous perspectives on regulatory and governance issues in the private provision of public functions, but focuses primarily on private actors offering services that impact the fundamental rights of the affected population.
