Updated with new  
material to celebrate the  
ten year discovery of  
Vivian Maier's work This is  
the only book that tells  
the life story of Vivian  
Maier in words and  
pictures. Known as "the  
nanny photographer,"  
Maier became an Internet

sensation after her photos  
were put online in 2009.  
Since then, Maier's  
breathtaking pictures--  
which show everyday life  
in mid-century America--  
have earned her  
recognition of one of the  
masters of photography.  
Presenting her  
photographs alongside  
revealing interviews with  
those who knew her best,  
this volume puts Vivian  
Maier's work in context  
and creates a moving  
portrait of her as an artist.

To better understand  
Maier, authors Richard  
Cahan and Michael  
Williams studied census  
records, ship manifests  
and interviewed every  
person they could find  
who knew Maier, from her  
childhood days in the  
French Alps to the families  
whose children she cared  
for in the United States.  
They combined this  
biographical information,  
much of it unreported,  
with more than 300  
photographs that she took

starting in 1949 to create the first comprehensive record of her life story.

Ansel Adams

Die Entdeckung des völlig im Verborgenen entstandenen Werks der 2009 im Alter von 83

Jahren verstorbenen

Vivian Maier ist eine photohistorische Sensation. Aus Frankreich stammend, verdiente Vivian Maier ihren Lebensunterhalt in den 50er und 60er Jahren als Kindermädchen in Chicago und New York. Auf eigene Rechnung und Gefahr und außerhalb jeder Öffentlichkeit führte sie eine Art Doppelleben als Street Photographer. Ihr Entdecker John Maloof legt ihr Werk in unserem Buch erstmals einer staunenden internationalen

Öffentlichkeit vor. Einige der Photographien wurden kürzlich in Deutschland in der Galerie von Hilaneh von Kories in Hamburg gezeigt.

\*Winner of the National Book Critics Circle Award in Criticism\* \*A New York Times Book Review Editors' Choice\* \*A New York Times Top 10 Nonfiction Book of the Year, as selected by Dwight Garner\* Geoff Dyer has earned the devotion of passionate fans on both sides of the

Atlantic through his wildly inventive, romantic novels as well as several brilliant, uncategorizable works of nonfiction. All the while he has been writing some of the wittiest, most incisive criticism we have on an astonishing array of subjects—music, literature, photography, and travel journalism—that, in Dyer's expert hands, becomes a kind of irresistible self-reportage. Otherwise Known as the Human Condition collects twenty-five years of essays, reviews, and

misadventures. Here he is pursuing the shadow of Camus in Algeria and remembering life on the dole in Brixton in the 1980s; reflecting on Richard Avedon and Ruth Orkin, on the status of jazz and the wonderous Nusrat Fateh Ali Khan, on the sculptor ZadKine and the saxophonist David Murray (in the same essay), on his heroes Rebecca West and Ryszard Kapuścin'ski, on haute couture and sex in hotels. Whatever he writes about, his responses never fail to

surprise. For Dyer there is no division between the reflective work of the critic and the novelist's commitment to lived experience: they are mutually illuminating ways to sharpen our perceptions. His is the rare body of work that manages to both frame our world and enlarge it.

**Wisdom Cries Out in the Streets** Simon and Schuster

A lucid and wide-ranging meditation on why photography is unique among the picture-making arts. Photography

matters, writes Jerry Thompson, because of how it works—not only as an artistic medium but also as a way of knowing. With this provocative observation, Thompson begins a wide-ranging and lucid meditation on why photography is unique among the picture-making arts. He constructs an argument that moves with natural logic from Thomas Pynchon (and why we read him for his vision and not his command of miscellaneous facts) to Jonathan Swift to Plato to Emily Dickinson (who

wrote “Tell all the Truth but tell it slant”) to detailed readings of photographs by Eugène Atget, Garry Winogrand, Marcia Due, Walker Evans, and Robert Frank. Forcefully and persuasively, he argues for photography as a medium whose business is not constructing fantasies pleasing to the eye or imagination, but describing the world in the toughest and deepest way.

In Paris, two couples form

an intimacy that will change their lives forever. As they discover the clubs and cafés of the eleventh arrondissement, the four become inseparable, united by deeply held convictions about dating strategies, tunnelling in P.O.W. films and, crucially, the role of the Styrofoam cup in American thrillers. Experiencing the exhilarating highs of Ecstasy and sex, they reach a peak of rapture - but the come-down is unexpected and devastating. Dyer fixes a

dream of happiness - and its aftermath. Erotic and elegiac, funny and romantic, Paris Trance confirms Dyer as one of Britain's most original and talented writers.

*On City Streets* Gost Books

The full spectrum of Ansel Adams' work in a single volume, offering the largest available compilation from his legendary photographic career capturing American landscapes. The photographs are arranged chronologically into five major periods, from his

first photographs made in Yosemite and the High Sierra in 1916 to his work in the National Parks in the 1940s up to his last important photographs from the 1960s. An introduction and brief essays on selected images provide information about Adams' life, document the evolution of his technique, and give voice to his artistic vision. Few artists of any era can claim to have produced four hundred images of lasting beauty and significance. It is a testament to Adams'

vision and lifetime of hard work that a book of this scale can be compiled.

ANSEL ADAMS: 400

PHOTOGRAPHS is a must-have for anyone who appreciates photography and the allure of the natural world.

Please note that all blank pages in the book were chosen as part of the design by the publisher. A good street photographer must be possessed of many talents: an eye for detail, light, and composition; impeccable timing; a populist or humanitarian outlook; and a tireless ability to constantly shoot, shoot, shoot, shoot and never

miss a moment. It is hard enough to find these qualities in trained photographers with the benefit of schooling and mentors and a community of fellow artists and aficionados supporting and rewarding their efforts. It is incredibly rare to find it in someone with no formal training and no network of peers. Yet Vivian Maier is all of these things, a professional nanny, who from the 1950s until the 1990s took over 100,000 photographs worldwide—from France

to New York City to Chicago and dozens of other countries—and yet showed the results to no one. The photos are amazing both for the breadth of the work and for the high quality of the humorous, moving, beautiful, and raw images of all facets of city life in America's post-war golden age. It wasn't until local historian John Maloof purchased a box of Maier's negatives from a Chicago auction house and began collecting and championing her marvelous work just a few

years ago that any of it saw the light of day. Presented here for the first time in print, Vivian Maier: Street Photographer collects the best of her incredible, unseen body of work. *Street Photographer* Quarry Books Editions Presents a collection of photographs that depict everyday life on the streets of Chicago. **Women of Vision** DK Publishing (Dorling Kindersley) "The latest entry in National Geographic's popular photo line gives

readers a front-row seat to the wonders of landscape photography. Choosing from among the world's best portfolios, curators at National Geographic have arranged a symphony of photographs that tell the story of a single day, from dawn's first light to the closing moments of sunset, from daylight to dark. Short legends accompany every photograph to explain the picture, the scene it conveys, or how the photographer captured it, along with quotations

from literature that provide historical context. With the widest possible array of perspectives, close-ups, and details, these photos present a lifetime of vision, each page a new experience of time and light"--  
Paris Trance Vintage  
 The definitive monograph of American photographer Vivian Maier, exploring the full range and brilliance of her work and the mystery of her life, written and edited by noted photography curator and writer Marvin Heiferman; featuring 250

black-and-white images, color work, and other materials never seen before; and a foreword by New York Times bestselling author Laura Lippman. Vivian Maier's story—the secretive nanny-photographer during her life who becomes a popular sensation shortly after her death—has, to date, been pieced together only from previously seen or known images she made and the handful of facts that have surfaced about her life. During her lifetime she shot more than 100,000

images, which she kept hidden from the world. In 2007, two years before her death, Chicago historic preservationist John Maloof discovered a trove of negatives, and roll upon roll of undeveloped film in a storage locker he bought at auction. They revealed a surprising and accomplished artist and a stunning body of work, which Maloof championed and brought to worldwide acclaim. Vivian Maier presents the most comprehensive collection and largest selection of

the photographer's work—created during the 1950s through the 1970s in New York, Chicago, and on her travels around the country—almost exclusively unpublished and including her previously unknown color work. It features images of and excerpts from Maier's personal artifacts, memorabilia, and audiotapes, made available for the first time. This remarkable volume draws upon recently conducted interviews with people who knew Maier, which shed new light on

Maier's photographic skill and her life.

Vivian Maier: The Color Work HarperCollins

This book has been an opportunity for Erwitt to revisit the photographs he made in his early career and to uncover meaning upon second glance which was not apparent when the image was originally taken. The master of visual one-liners--bold statement images replete with humour, irony and acknowledged absurdity--the photographs selected for this book are quieter, more subtle and suggest

Erwitt's increasing confidence in his own eye. By selecting these photographs he has begun to both examine and challenge how his younger self saw the world.

Jarred by the 9/11 attacks, photographer Jack Spencer set out in 2003 "in hopes of making a few 'sketches' of America in

order to gain some clarity on what it meant to be living in this nation at this moment in time." Across thirteen years, forty-eight states, and eighty thousand miles of driving, Spencer created a vast, encompassing portrait of the American landscape that is both contemporary and timeless. *This Land* presents some one hundred and forty photographs that span the nation, from Key West to Death Valley and Texas to Montana. From the monochromatic and distressed black-and-

white images that began the series to the oversaturated color of more recent years, these photographs present a startlingly fresh perspective on America. The breadth of imagery in *This Land* brings to mind the works of such American masters as Edward Hopper, Grant Wood, Mark Rothko, and Albert Bierstadt, while also evoking the sense of the open roads traveled by Woody Guthrie and Jack Kerouac. Spencer's pictorialist vision embraces the sweeping

variety of American landscapes—coasts, deltas, forests, deserts, mountain ranges, and prairies—and iconic places such as Mount Rushmore and Wounded Knee. Jon Meacham writes in the foreword that Spencer's "most surprising images are of a country that I suspect many of us believed had disappeared. The fading churches, the roaming bison, the running horses: Spencer has found a mythical world, except it is real, and it is now, and it is ours."

In Chicago, it has long been common knowledge that the neighborhoods have been overshadowed by the Loop's luster. Portage Park is one of these hidden gems, offering up a wealth of history, culture, and art.

As the site of a lesser-known Chicago Portage, the largest retail district outside the Loop at Six Corners, the visual backdrop of movies such as My Life and The Color of Money, and the spot where both Abraham Lincoln and John Dillinger legendarily stayed and the sister of the czar of Bulgaria prayed, this corner of Chicago has seen its share of glitz and glory. Discover Portage Park's architectural treasures, whether it is in its place as a part of Chicago's "Bungalow

Belt," its wealth of notable buildings spanning different genres and time periods, or its beautiful churches and grand movie palaces. An area diverse in culture, many peoples, beginning with Native Americans and going onto the Yankees, Irish, Scandinavians, eastern Europeans, and even a Tibetan lama, have made Portage Park their home, each adding their own unique contribution to the vibrant cultural landscape. The site of the largest concentration of Chicago's legendary

Polish population, it is also the place where immigrants left the inner city's ethnic enclaves to take part in the American dream.

When John Maloof bought an unmarked box of undeveloped negatives back in 2007, he had no idea that he had just stumbled upon one of the 20th Century's most important troves of street photography and self/portraiture. The photographer: Vivian

Maier, a secretive and eccentric nanny who over the course of more than three decades took tens of thousands of photos of everyday urban life - and showed them to no one. Finding Vivian Maier follows Maloof as he embarks on a quest to reveal the woman behind the Rolleiflex camera. Part retrospective, part detective story, Finding Vivian Maier is a touching portrait of a woman haunted by her past. For a contemporary age obsessed with self-documentation via all

forms of technology, Vivian Maier was a pioneer. Vivian Maier HarperCollins Mordantly funny, thought-provoking travel essays, from the acclaimed author of *Out of Sheer Rage* and "one of our most original writers" (New York Magazine). This isn't a self-help book; it's a book about how Geoff Dyer could do with a little help. In these genre-defying tales, he travels from Amsterdam to Cambodia, Rome to Indonesia, Libya to Burning Man in the Black Rock Desert,

floundering in a sea of grievances, with fleeting moments of transcendental calm his only reward for living in a perpetual state of motion. But even as he recounts

his side-splitting misadventures in each of these locales, Dyer is always able to sneak up and surprise you with insight into much more serious matters. Brilliantly riffing off our expectations

of external and internal journeys, Dyer welcomes the reader as a companion, a fellow perambulator in search of something and nothing at the same time.
