Gabrielle Hamilton meets April Bloomfield in a raw and rollicking memoir that pulls back the curtain on life as a female butcher. When 16-year-old Jessica Wragg applied for a job at the local farm shop in her hometown of Chesterfield, England, she never expected to land a position behind the all-male butchery counter. Young and enthusiastic, and fueled by a newfound fascination with the craft, Wragg quickly realized that she was an outcast in

a world of middle-aged men who spoke a secret language to fool customers and were reluctant to share the tricks of their trade with a novice. A decade later, against all odds, Wragg is pulling back the curtain on an industry that is still problematically set in its old-school ways. Like her female counterparts in the restaurant world, she has had to fight to establish herself in the meat industry, memorizing muscle and bone and tendon, while battling sexism and ageism. *Girl on the Block* is a fish-out-of-water story that blends Wragg's personal journey with an exploration of the sanctity of her craft and an honest look at the modern meat industry. A tour through one of the oldest, dirtiest, and most fascinating professions, *Girl on the Block* is Wragg's tale of returning home with blood on her boots at the end of fourteen-hour days and finding her way in the end.

and is expensive. One aspect of ensuring consumers have adequate amounts of high-quality meat and meat products is growing in importance. It's the processing of meat as a raw materials. An insightful and engaging insider's look at the history and business of the meat industry, from master butcher Pat LaFrieda "A full-throated celebration of red meat from one of the nation's major purveyors. . . . The true meat of his book is a study of how beef is brought from farm to table as well as an account of commercial success that deserves a place on any business school syllabus." -- Kirkus Reviews It all began when Pat LaFrieda's great-grandfather Anthony LaFrieda decided to pack up and move his family from Italy to New York in search of a better life, setting up the family's first retail butcher shop in

1922 in Flatbush, Brooklyn. Almost one hundred years later, Pat LaFrieda, a fourth-generation butcher and third-generation meat purveyor, is at the helm of a family-run business that has been providing meat to customers for decades, through wars, the Great Depression, the tumultuous years when New York City was dubbed "Fear City," the fall of the Twin Towers, unprecedented hurricanes, and even a pandemic. Most people don't know the amount of time, commitment, and extenuating work that goes into bringing them the piece of meat on their plate. What are the real implications of grass-fed beef on climate change? What is involved in humanely processing animals at harvesting facilities? Why is grading, labeling, and traceability essential for the consumer? And what's the beef with eating meat? There are two sides to every story; however, in the beef industry's case, only one side seems to get most of the airtime. In *Glorious Beef*, LaFrieda shares his family's legacy and pulls back the curtain to reveal a behind-the-scenes view of each stage of the process involved in

bringing beef from pasture to plate and the truths behind the industry's story of survival and constant evolution.

In his debut book of photography, with a foreword by one of the luminaries of NYC culture and entertainment, Adrian Buckmaster's monograph presents a staggeringly beautiful collection of portraits - a cross-section of humanity in all of its glorious diversity, from the ordinary to the extraordinary and everything in-between. Having spent his early years shooting commercial beauty and fashion, Buckmaster soon shifted focus to more personal projects, challenging conventional notions of beauty and celebrating the eccentricities of those whom society might classify as "misfits." Echoes of Buckmaster's early career

remain, in the form of exquisite costuming, make-up, and scenic design. Despite an element of performance, there is an undeniable rawness to these portraits, in which subjects are both aware of the camera's gaze and sympathetically self-conscious, robing and disrobing, revealing and concealing. Buckmaster's photographic genius is encapsulated in his uncanny ability to fastidiously art direct while simultaneously stripping away layers of formality and convention. Arranged in three movements: Imposing, Revealing, and Inventing, this collection progresses from traditional portraiture to increasingly intimate portrayals, as subjects expose, create, and invent themselves. Included in this endlessly varied spectrum of characters are Burlesque performers, families, brides, lovers, and all manner of tattoos and body piercings. There are classical reclining nudes, reminiscent of Édouard Manet's *Olympia* or Titian's *Sleeping Venus*, dancers with incredible physical strength and dexterity, women costumed as peacocks and geishas, a

contortionist inside a trunk, even a green-skinned man, bejewelled like an Indian deity. All of this and much more, *An Embarrassment of Riches* is a joyful celebration of individuality that will leave the reader mesmerised.

This collection of state of the art interpretations of the thought of René Girard follows on from the volume *Violence, Desire, and the Sacred: Girard's Mimetic Theory Across the Disciplines* (2012). The previous collection has been acclaimed for demonstrating and showcasing Girard's mimetic theory at its inter-disciplinary best by bringing together scholars who apply Girard's insights in different fields. This new volume builds on and extends the work of that earlier collection by moving into new areas such as psychology, politics, classical literature, national literature, and practical applications of Girard's theory in pastoral/spiritual care, peace-making and religious thought and practice.

In this book Greenawalt explores the three-way relationship between the idea of freedom of speech, the law of crimes, and the many uses of language. He begins by considering free speech as a political principle, and after a thorough and incisive analysis of the justifications commonly advanced for freedom of speech, looks at the kinds of communications to which the principle of free speech applies. He then turns to an examination of communications for which criminal liability is fixed. Focusing on threats and solicitations to crime, Greenawalt attempts to determine whether liability for such communications seriously conflicts with freedom of speech. In the second half of the book he goes on to develop the significance of his conclusions for American constitutional law, addressing such questions as what should be considered "speech" within the meaning of the

First Amendment, and what tests the courts should employ in deciding whether particular criminal statutes should be held constitutional. He concludes that the issues are too complex to yield simple solutions, and insists that the protection of the First Amendment can be reduced neither to one justification nor to one all-purpose test of coverage.
